Operations & Subsidiaries

The Rizik Global ecosystem operates across five specialized units, unified by automated logistics and eco-tech compliance.

Rizik Textile

FLAGSHIP

Redefining woven tech. Home to the **Rizik Eco-Mat** series—biodegradable, high-durability surfaces engineered for community and prayer spaces.

Explore Products →

Rizik Bio-Tech

Biomaterial research and organic structural integrity. Operating in stealth to develop next-gen alternatives to plastic and synthetic fibers. [Classified]

Rizik Tech

The digital nervous system of the ecosystem. Managed cloud logistics, Squad tracking engines, and automated order fulfillment systems.

ACTIVE PRODUCT: Rizik Writer ↗

Rizik Cloud Kitchen

UPCOMING

Reinventing food safety through tech-integrated preparation and traceable supply chains. Initial deployment phase scheduled for Q4.

Rizik Manufacturing

Decentralized production nodes empowering local labor through standardized assembly, high-precision tooling, and global quality control.

Rizik Writer

PRODUCT OF FIBRE TECHNEW LAUNCH

Advanced Voice DNA Humanizer. Stealing the "A" fingerprint from text and injecting your unique linguistic signature. 100% Turing & GPTZero stealth.

Launch DNA Engine →

FIELD STORIES

From Community Node to Global Supply

Explore All Units

CASE STUDY 01

Mosque Fleet Delivery

Glow-series mats deployed across clustered Ramadan schedules with synchronized logistics windows.

CASE STUDY 02

Agro Processor Pilot

Bio-Shield membranes tested for spice and vegetable shelf-life extension in decentralized operations.

CASE STUDY 03

Export Chain Readiness

Traceability-linked packaging flow prepared for high-volume outbound handling and compliance review.

ENTERPRISE

Rizik B2B Solutions

Public-facing enterprise offering for large organizations. Operations dashboards remain restricted to authorized portal users.

Institutional Procurement

Structured supply for mosques, schools, NGOs, and enterprise buyers with contract-based pricing.

Private Label and Packaging

Custom brand programs for active packaging and eco-product lines with quality checkpoints.

Distribution and Fulfillment

Coordinated dispatch planning, order tracking, and batch-level visibility for bulk orders.

Need a Commercial Quote?

Supply chain nodes

Community Outcomes

Primary manufacturing clusters: Barishal and surrounding rural nodes.
Women-led quality and packaging pods integrated into daily output.
Faith-centered event logistics enabling predictable seasonal income.

Trust + Traceability

Certifications, lot traceability, and product-chain verification are published in the trust layer.

Open Trust Layer

Trust Layer

Certifications + Supply Chain Traceability

This layer standardizes how Rizik demonstrates quality, safety, and accountability across subsidiaries.

Certification Stack

- Food-contact polymer safety declaration
- High-heat resistance validation protocol
- Batch-level QA + dispatch sign-off
- Supplier onboarding compliance checklist

Traceability Chain

Source

Raw polymer + additive intake with supplier lot IDs.

Manufacture

Production batch mapping with time, pod, and operator reference.

QA

Barrier integrity, thickness, and retort simulation outcomes.

Dispatch

QR-linked shipment record and receiving confirmation.
